

QuickConnect™ Handles

Interchangeable mop handles; stainless steel, carbon fiber, and aluminum

Contec's QuickConnect™ handles offer maximum flexibility for cleaning and disinfecting in controlled environments. QuickConnect is a cost-effective solution, offering a user maximum flexibility.

Invest in one of our interchangeable mop handles, which can be used with all Contec mop head frames. The mop head frames have identical “quick-connect” buttons which enable easy attachment to all sizes and styles of QuickConnect mop handles.

Handles are available in carbon fiber, stainless steel, and anodized aluminum. These come in with a variety of handle lengths, including telescopic options for reaching high ceilings.

Fully autoclavable at 121° C for 30 minutes.

Features	Benefits
QuickConnect handles in various materials and sizes	• Easy to customize handles for the environment being cleaned
Compatible with all QuickConnect mop frames	• Cost-effective as one handle fits multiple frames for various mopping systems
Telescoping handles	• Make it easy to reach high surfaces such as walls and ceilings
Stainless steel handle	• Exceptional durability with a polished finish for prolonged use
Carbon fiber handle	• Lightweight with various lengths for any cleanroom environment • Hanging loop available with CFH18, CFH32, CFH70 and CFH114 that allows for easy storage
